

## **Walk Away From Your Troubles**

**Suzanne Petersen**

*Walk away from your troubles in the company of friends*

*Walk away from your troubles in the company of friends*

Well I didn't know I needed someone to depend

Till the waves rolled in and were my only friends

*Walk away from your troubles in the company of friends*

*Walk away from your troubles on that lonely road of doubt*

*Walk away from your troubles on that lonely road of doubt*

When you get down to the ocean to the waters edge

Don't forget to get your feet a little wet

*Walk away from your troubles on that lonely road of doubt*

*Walk away from your troubles they're just houses on a hill*

*Walk away from your troubles they're just houses on a hill*

Black birds they fly together, not alone

Travel with the weather they aint got no home

*Walk away from your troubles they're just houses on a hill*

*Walk away from your troubles there'll be darker clouds ahead (Improv. If*

*You walk away there'll be darker clouds ahead)*

*Walk away from your troubles there'll be darker clouds ahead*

Well I never knew I needed someone to depend

Till I got down to my journeys end

*Walk away from your troubles in the company of friends.*
